IT Service Desk FAQ

Document no. **IT-007** Owner **IT Operations Team** Revised **2026-03-10** Classification **Internal**

1. Accounts and Authentication

- You can reset your password yourself on the self-service portal (password.contoso.example).
- If you lose your MFA device, contact the Service Desk (ext. 7000) immediately to remove your existing authentication method and register a new device.

2. Remote Work

- When working from home, use business systems only while connected to the company VPN (Always-on VPN).
- Do not store work materials on a personal PC.

3. Equipment and Software

- Laptops are replaced on a 4-year cycle.
- Request software installation through the 'SW Request' menu in the IT portal; after a security review, requests are processed within 3 business days.
- Unapproved software (such as personal cloud-sync apps or external AI extensions) may not be installed.

4. Security Incidents

If you suspect malware, disconnect the network cable or Wi-Fi and report it to the Information Security Team (ext. 7777) immediately.
